ENERGIZED ALKALINE WATER FLASK & WATER STICK

In reality

Clean water, or healthy living water, is a fundamental necessity for human beings to stay hydrated. Yet in today's fast-paced world, many individuals fail to consume sufficient water, often wondering why they experience health issues.

(Dead Water)

Plain Distilled Water
There was no organised form or crystalline structure

(Healthy Living Water)

Energised Water (10 min)
Same distilled water energised by Uniwave Alkaline Water Flask & Water Stick by Quantes Technology

DISCOVER UNIWAVE BY QUANTES TECHNOLOGY:

- Promotes the body's natural ability to maintain cell health.
- Supports the body's natural cellular regenerative processes.
- Provide optimum energy for a healthy lifestyle

FUNCTIONS:

- 1. Living Water Transformation:** Transforms regular water into "living water", promotes healthy blood flow, enhances the body's energy levels, supports the body's natural balance and comfort, and contributes to maintaining youthful vitality.
- 2. Alkaline Balance:** This neutralizes acidity, reduces toxicity, and ensures a balanced pH level, particularly beneficial for smokers, alcohol consumers, and individuals who frequently consume fast food.
- 3. Antioxidant Power:** Transforms water into a potent antioxidant with an ORP of -380mV to -400mV.
- 4. Enhanced Hydration:** Reduces water molecule size for optimum hydration and better absorption, aiding detoxification and metabolism.

THE RESULTS:

- Supports proper hydration
- Supports nutrient absorption
- Maintaining optimal energy levels
- Boosts Energy and Promotes a Sense of Wellness
- Promote New Cell Formation Through Natural Processes
- Supports the body's natural cleansing processes
- Supports balanced acidity levels
- Supports digestive health
- Supports a balanced pH level
- Supports comfort in the digestive tract
- Promotes skin health
- Support the body's natural defenses
- Supports the body's response to oxidative stress
- Helps manage the presence of Free Radicals
- Supports healthy blood flow
